

**Essence:** Sweet children, kick away this land of sorrow whilst you are still alive because you have to go to the land of happiness.

**Question:** What little effort does Baba ask you children to make?

**Answer:** Baba says: Children, lust is your greatest enemy. You have to overcome this. The only thing I ask you to do is to make this little effort. You have to become completely pure. To become completely pure from impure means to become divine. Those who are going to become divine must not now become like stone. If you children now become beautiful flowers, Baba will seat you in His eyes and take you back home with Him.

Om shanti. Spiritual children, the spiritual Father explains to you. You children definitely do understand that you are Brahmins who are to become deities. You have this firm faith. A *teacher* would definitely make those he teaches similar to himself. This is a matter of faith. Baba comes and explains to us every cycle and changes us residents of hell into residents of heaven. There has to be someone who changes everyone in the whole world. Baba makes you into the residents of heaven and Ravan makes you into the residents of hell. At present, it is the kingdom of Ravan. In the golden age, it is the kingdom of Rama. There is someone to establish the kingdom of Rama and so there also definitely has to be someone to establish the kingdom of Ravan. God is referred to as Rama and it is He who establishes the new world. Knowledge is very easy; it isn't a big thing. However, there are some who have such a stone intellect that they think it is impossible for their intellect to become divine. It is because they are influenced by Maya that the people of hell have to labour so hard to become the people of heaven. People now build huge buildings of fifty to a hundred floors. In heaven there aren't that many floors. It is only nowadays that they build such buildings. You understand that in the golden age there won't be any buildings like the buildings here. Baba Himself explains: There isn't such a huge tree on this whole world and so, there is no need to build buildings with so many floors there. There is plenty of land there. Here, there isn't any spare land and this is why it has become so expensive. There, land doesn't cost you anything. Neither is there any *municipal tax*. People can take as much land as they want. It is simply by studying all the *knowledge* that the Father gives you here that you will receive all happiness there. It costs money to build buildings with a hundred floors. There, nothing costs you money, yet you have plenty of wealth. Money has no value. What would you do with all that money? You build palaces of gold, diamonds and pearls. You children are now being given so much wisdom! It is simply a matter of wisdom and senselessness; of a sato intellect and a tamo intellect. Those who are satopradhan are the masters of heaven and those who have a tamopradhan intellect are the masters of hell. This is not heaven. This world is extremely degraded hell. It is because people are experiencing such great sorrow that they call out to God. However, later they forget Him. They now beat their heads so much in holding *conferences* etc. so that there can be unity. However, you children understand that everyone can't be united. The whole tree has reached a state of total decay. It is now to be renewed again. You know how the iron age changes into the golden age. It is only at this time that Baba explains this *knowledge*. The residents of the golden age change into the residents of the iron age and the residents of the confluence age change into the residents of heaven again. Some people ask: Will all these people go to heaven? No; only those who listen to the real, true story of becoming true Narayan will go. Everyone else will go to the land of silence. The land of sorrow will not exist anyway and so you have to kick this land of sorrow away whilst you are still alive. Baba shows you clever ways to kick this old world away. The kingdom of deities used to exist over the whole world and Baba has now come to establish it again. We are claiming our kingdom of the world from the Father. According to the *drama-plan*, the world definitely has to *change*. This world is old. Would you call it the golden age? People have such stone intellects that they are completely unable to understand what heaven is. Baba has explained that only those who have done the most worshipping, become worthy of this *knowledge*. It is to them that you have to explain. Those who do not belong to this clan will not understand and so why should you *waste your time* on them? Since they are not part of our dynasty, they will not believe anything you tell them. They simply ask: What is the soul and what is the Supreme Soul? They don't really want to understand and so why should you labour over them. Therefore, Baba explains: It is written at the top of the picture. God speaks: I

come at the most auspicious confluence age of every cycle in the body of this ordinary human being. I come and explain to this one who doesn't know of his own births. I tell you who plays the complete *part* of five thousand years. It must definitely be the role of the one who claimed the number one position. They even sing the praise of Shri Krishna being the *first prince* of the golden age. And, what has he become by the end of eighty-four births? He is the *first beggar*. It is said: "*Beggar to prince*" and then "*Prince to beggar*". You understand how you become *beggars* from *princes* and then how Baba comes and makes you become like diamonds from shells. Those who are like diamonds then become like shells. Everyone definitely has to take rebirth. You understand who takes the maximum number of births. First of all, explain to everyone that it is Shri Krishna's kingdom and so it must be he who takes the maximum number of births. This is such a simple matter, but people don't pay attention to it. When Baba explains, they become amazed. Baba tells you *accurately* about the *first* one who then becomes the *last*: the *first* one who is like a diamond to the *last* one who is like a shell. You have to become like a diamond again; you have to become pure. What's so difficult about this? The parlodik Father issues an *ordinance*: Lust is your greatest enemy. How do you think you became impure? It was by indulging in lust. You have been calling out to the Purifier to come because Baba is the One who always has a divine intellect. His intellect never becomes stone. There is a *connection* between Him and the one who takes the *number one* birth. There are many deities but those people are unable to understand anything. The Christians say that *Paradise* used to exist three thousand years before Christ. They came later on and so they still have power. Because Christians still have a *fresh* intellect, others go and learn from them. Their number also continues to grow. Everyone goes through the stages of sato, rajo and tamo. You know that people here learn everything from the foreign lands. You also know that it won't take any *time* to build palaces etc. in the golden age. Something enters the intellect of one person and then everything develops from that. They start with one building and then continue to build many others. Their intellects will understand what to do. When *scientists* come to you, their intellects become elevated. They'll build palaces there very quickly. Here, it takes twelve months to build a building or temple. There, the *engineers* etc. are very clever. That is the *golden age*. There won't be any bricks etc. Whilst you are sitting here you should be thinking about how you will soon leave your old body and return home and how from there, you will take birth in the golden age through the power of yoga. Can you children not experience this happiness? Don't you think about this? Surely, you most *serviceable* children must be thinking about this! When someone has *passed* the exam to become a *barrister*, his intellect starts to think "I'll do this and I'll do that". Therefore, you too should be thinking about what you'll become after you leave your body. It is only through remembrance that your life-span increases. At present, you are the children of the unlimited Father and this is a very high *grade*. You are the family of God. You do not have any other relationship. You have been taken even beyond the relationship of brother and sister. Just consider yourselves to be brothers. You have to *practise* this a great deal. Where do you brothers reside? The immortal soul resides on this throne. All the thrones of the souls have decayed. Your thrones have decayed the most. The soul is sitting on this throne. Your intellect has to understand what is in the centre of the forehead. Souls are completely as subtle as a *star*. Baba says: I too am a Point. I am no larger than you. You know that you are the children of Shiv Baba and that you now have to claim your inheritance from your Father. This is why you must consider yourselves to be souls, brothers. Baba is here, in person, teaching you. As you progress, you will be pulled more strongly. These obstacles etc. also have to come according to the drama. Baba says: You must now not become impure. Baba issues this *ordinance*. People have now become even more impure. They cannot stop indulging themselves in vice. The *Government* says: Do not drink alcohol and yet they cannot stop drinking it. Some are given alcohol to drink and then *directed* to crash with the *bombs* they are carrying. There is so much damage caused. Whilst sitting here, you are becoming the masters of the world, whereas they are dropping *bombs*. Everything they do is for the destruction of the world. There is so much fighting. Whilst sitting here, you remember Baba in order to become the masters of the world. You must remember the Father under all circumstances. There is no question here of doing hatha yoga or sitting in any particular posture. Baba doesn't give you any difficulty. No matter how you sit, simply remain aware that you are the *most*

beloved children. You receive your kingdom as easily as pulling a hair from butter. "Jeevanmukti in a second" has also been remembered. Whilst sitting or whilst going out for a walk etc. remember the Father. How can you return home unless you become pure? If you don't become pure, punishment will have to be experienced. When you pass through the realm of Dharamraj, all of your karmic accounts will be settled. You will attain a high status according to the extent that you have become pure. If you remain impure, you just receive a thick dry chapatti. To the extent that you remember the Father, your sins will accordingly be cut away. There is no question of any expenditure in this. You may remain living at home. Simply accept this mantra of manmanabhav from the Father. It is this mantra that enables you to control Maya. Once you have received this mantra you can return home. You don't need to say anything through your lips. Just remember Alpha and beta, your kingdom. You understand that it is by remembering the Father that you can become satopradhan and that your sins will be cut away. Baba tells you his own experience. When I sit down, before I start to eat, I remember Baba very well. However, I very quickly forget Him. It has been sung for this: The one on whose head there is the responsibility has to have so much concern. Such-and-such a soul does a great deal of service and so one has to remember that soul. Baba gives a lot of love to the serviceable ones. He also tells you just to remember the soul that is present in the body. You come here to Shiv Baba. Baba has come down from there (the home). Although you tell everyone that God has come, none of them understand. You have to tell them in a clever way. You have two fathers: your limited father and your unlimited Father. Your unlimited Father is now giving you a kingdom. The destruction of the old world is just in front of you. Baba is establishing one religion and destroying all other religions. Baba says: Remember Me alone and all your sins will be burnt away. This is the fire of yoga through which you become satopradhan from tamopradhan. Baba has shown you this method. You children know that Baba is making you into beautiful flowers and will then seat you in His eyes and take you back home with Him. Which eyes? Those of knowledge. He takes all the souls back home with Him. You know that you definitely do have to go and so why don't you claim your inheritance from your Father before that? The income you claim is huge. However, by forgetting Baba, you would also lose so much. Therefore, become accurate businessmen. Only by remembering the Father will you souls become pure. You will then shed your body and take another. Therefore, Baba says: Sweet, sweet children, become soul conscious. You have to make this habit strong. Continue to think of yourself as a soul and study with the Father and your boat will be able to go across. You will go to the Temple of Shiva. This story is also mentioned in the scripture, "Chandrakant Vedant". How does the boat move? Some disembark at a port halfway through the journey, because their heart becomes attached to something and so the steamer leaves without them. All the scriptures of the path of devotion will be created again. You will study them again and when Baba comes again, you will leave them again. Baba comes in order to take everyone back home. It is so clear how the rise and fall of Bharat takes place. This one becomes ugly and then beautiful again. He becomes Vishnu from Brahma and Brahma from Vishnu. It isn't just one that becomes this. You can give all of these explanations. There is also the explanation of how Krishna is the ugly one and the beautiful one (Shyam Sundar). The picture clearly shows him going towards heaven and kicking away hell. There are also the pictures of your sovereignty. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### Essence for dharna:

1. In order to follow the ordinance given to you by Baba, maintain this awareness: We souls are brothers: we reside in the centre of our foreheads; we are the children of the unlimited Father; this is our family, the family of God. You have to instil the habit of becoming soul conscious.
2. In order to escape being punished by Dharamraj, settle all your accounts beforehand. Remember the mantra "manmanabhav" you have been given by Baba to control Maya and thus become satopradhan.

Morning Murli Om Shanti BapDada

Madhuban

**Blessing:** May you be a *holy* swan who transforms wasteful thoughts, words and deeds and makes them powerful.

A *holy* swan means one who transforms wasteful thoughts, words and deeds into powerful ones. Anything wasteful is like stone and has no value. A jewel is precious. A *holy* swan is instantly able to discriminate whether something is useful or not. Whilst doing anything, simply remain aware that you are a Raja Yogi, a *knowledgeable* soul who has the power to *rule* and *control* and then nothing will be wasted. By remaining in this consciousness you will become a *holy* swan.

**Slogan:** Only when you stabilise on your *seat* of self-respect and respect everyone can you become worthy of respect.
