

**Essence:** Sweet children, if you remember Alpha and beta, the Father and the inheritance, your mercury of happiness will remain high. This is an easy matter of just one *second*.

**Question:** Which children have limitless happiness? What is the method to make the mercury of happiness always remain high?

**Answer:** Children who practise being bodiless, those who imbibe very well whatever the Father tells them and who inspire others to imbibe it experience limitless happiness. In order for your mercury of happiness to remain constantly high, continue to donate the imperishable jewels of knowledge. Bring benefit to many others. Always have the awareness that you are now going to the peak of happiness and peace and you will remain happy.

Om shanti. BapDada has the thought that He should get you children to write down in a *second* whose remembrance you are sitting in. It doesn't take *time* to write this down. Each one of you can write it in a *second* and come and show it to Baba. (Everyone wrote it and showed it to Baba. Then Baba also wrote it down. No one had written what Baba wrote.) Baba wrote: Alpha and beta. It is so easy! Alpha means Baba and beta means the kingdom. Baba is teaching you and you are attaining your kingdom. There is no need to write anything more. You took more than two *minutes* to write this. To write Alpha and beta is a matter of a *second*. Sannyasis only remember Alpha. You also remember your sovereignty. You have to instil the habit of remembrance. When this sits in your intellect, your mercury of happiness remains high. The meaning of Alpha is that He is the *Highest Peak*. There is nothing higher than that. The place of residence is also the highest of all. No one knows the meaning of liberation or liberation-in-life in a *second*. That too must definitely have a meaning. When a child is born, they write: He was born at this hour, *minute* and *second*. The needle continues to *tick* away. In one *tick*, you can say: Alpha and beta. It doesn't take even a *second*. There is even no need to say it; you remember it anyway. You children should have a very good stage. However, that can only happen when you have remembrance. Whilst sitting here, you should remember the Father and the kingdom. When the intellect sees, it is called divine insight. The soul also sees. It is the soul that must be remembering the Father. When you remember the Father, you also remember the kingdom at the same time. How long does it take? Here, when you sit in remembrance, you would also experience deep happiness. Baba too is sitting here in this happiness. The father doesn't remember anything of here. Baba remembers the things of there (the new world). It is as though Baba and the kingdom are standing on your doorstep. The Father says: I have brought the kingdom for you children. It is just that you don't have remembrance and this is why your happiness doesn't remain. Whilst sitting and moving around, consider yourself to be a soul, and remember Me, your Father, and your inheritance. The place where you reside is so high. The world doesn't know this. People beat their heads so much in order to go into liberation. But where is the land of liberation? You understand that a soul is a *rocket*. Those people go to the moon, but then, after that, there is just space. You go even beyond that space. The moon exists in this world. It is said: Beyond the sun and moon, beyond even sound. You have to shed your body. You come here from the *sweet silence home*. It doesn't take time to come and go. That is your home. Here, wherever you go it takes *time*, When a soul sheds his body, he goes so far away in a *second*. The soul sheds one body and goes and enters another one. So, you have to consider yourself to be a soul. You are going to the very highest peak. People want peace. The *highest* peak of peace is the incorporeal world and the *highest* peak of happiness is heaven. The highest on high is called a *tower*. Your home is also so high. People of the world never think about these things. There is no one to explain these things to them. That is called the *tower* of peace. People continue to say that there should be peace in the world. However, they don't know the meaning of that as to where there is peace. Lakshmi and Narayan exist in the *tower* of happiness; there is no greed or temptation there. Their food, drink and way of speaking etc. are all very *royal*, and they experience the *highest* happiness. Look how much they are praised through having made a lot of effort. They are not the only ones; a whole rosary was created. In fact, nine jewels are remembered. Surely, they must have made incognito effort. Only when you remember the Father and the inheritance will your sins be absolved. However, Maya doesn't allow you to stay in remembrance. Sometimes lust and sometimes anger bring many storms. You have to feel your own pulse. Narad was also

told to look at his face in the mirror. So, you don't have that stage now; it has to be created. Baba would definitely show you your *aim* and *objective*. Continue to make effort internally. As you make further progress, you will have that stage. You have to practise being bodiless. You now have to return home. Baba said: Remember Me. If you don't remember Me, there will have to be a lot of punishment and the status will also be reduced. These matters are very subtle. Those people go so *deep* into *science*. Look at what they continue to create! Those sanskars are also needed so that they can go there and create these things. It is just that this world has to change. They will all go from here and take birth according to their sanskars of the present time. Those who fight in an army have sanskars of battling in their intellect. So, they carry those sanskars with them. They cannot stay without fighting. An *officer* would always have a *queue* in front of him. At the time of registering everyone, they check that they don't have any illness. They check that their eyes, ears etc. all function well. They have to function well to be in an army. Here too, it is seen which ones will become the beads of the rosary of victory. You have to make effort and attain your karmateet stage. The soul came here bodiless and has to return home bodiless. There is no bondage with the body there. You now have to become bodiless. Souls come from there and adopt a body here. So many souls continue to come. Each one of you has received your own *part*. New pure souls definitely receive happiness at first. This is why they are praised. The tree is big. There are so many very well-known people. All of you will be in a lot of happiness, according to your own strength. So, you children now have to make a lot of effort. You have to become pure and go back in your karmateet stage. You have to examine your own behaviour: Am I causing anyone sorrow? The Father is so sweet. He is the *most beloved*. So, you children have to become the same. You children know that the Father is here. People don't know that the Father is carrying out establishment here. Nevertheless, they continue to remember Him for birth after birth. They go to the Shiva Temple and worship Him so much. They go to such a high peak, to the temple of Badrinath. There are so many melas that take place (in His name) because He is very sweet. They sing: God is the Highest on High. They would only retain the Incorporeal One in their intellect. There is always the Incorporeal One, and then there are Brahma, Vishnu and Shankar. They cannot be called God. You children now understand that you too were satopradhan deities. When you are the masters of the world, there aren't so many human beings. It will be their kingdom in just Bharat. All the rest will go away to the land of peace. You continue to observe all of this. A very broad and unlimited intellect is needed for this. There, you won't need to go to the mountains. There will be no *accidents* etc. there. That is the *wonder of heaven*. When it is not the *wonder of heaven*, it becomes the *wonder of Maya*. People of the world cannot understand these things. You are now making effort to go to heaven. That is the *tower of happiness* whereas this is the *tower of sorrow*. So many people die in battle every day, and so they must also take birth somewhere. It is remembered: You cannot reach the end of God. God is just a Point. What end could you reach? The Father says: No one knows the beginning, middle or end of this creation. Sages and holy men cannot reach the end of the Creator or the creation. The Father is teaching you. This is called a study. Only you children now come to know the secrets of the world cycle. Those people say: We do not know. Or they speak of hundreds of thousands of years. The Father has explained that everything you see now will not exist there. Heaven is the *tower of happiness*, whereas here, there is nothing but sorrow. Death will suddenly come in such a way that everyone will die. To witness death is not like going to your aunty's home! This is called the peak of sorrow and that is called the peak of happiness. There is no other word. Amongst you too, there are many who listen to this, but are unable to imbibe it. Dharna can only take place when your intellect becomes *golden-aged*. If there is no dharna, you cannot experience happiness. There are those who study at the *highest* level and there are also those who study at the *lowest* level. There is a difference in how they study. No matter how much the unlimited Father explains to them, they would never understand. You will never be able to become pure without remembrance. The Father Himself is like a magnet. He is the One with the *highest power*. He can never become rusty. All others are covered in rust. You have to remove that and become satopradhan once again. The Father says: Constantly remember Me alone. Let there be no attachment to anyone else. Wealthy ones keep seeing their wealth in front of them throughout the day. Poor ones don't have anything, but if they are sensible, they can imbibe.

How can the rubbish be removed without remembrance? How can we become pure? You have come here to go to the highest peak. You know that by following the Father's teachings, you will go to the highest peak of happiness. This requires effort. The Father comes here to take to you to the *tower*. So you have to follow shrimat. Lakshmi and Narayan are remembered as number one. They would be in the highest *tower*, and others would be lower than them. Only the new world is called the *tower* of happiness. There is nothing dirty there. There is no such dust or air there such as there is here that would spoil the buildings. There is a lot of praise of heaven. You have to make effort for that. Lakshmi and Narayan are so high. As soon as you see them, your heart becomes happy. As you make further progress, many will continue to have visions. There were so many visions given in the beginning. Baba showed so much splendour. You used to come wearing crowns etc. You cannot find those things here. Baba was a jewel-merchant. Jewels that used to cost 50,000 in earlier days cannot be bought for even 5 million today. You are making effort for heaven. There is limitless happiness there. The Father teaches you so much, but there is still the difference of day and night amongst the children. There is a vast difference between the kings and queens and the maids and servants. Those who study well and teach others cannot remain hidden. They would instantly say: Baba, I am going to go to such-and-such a place to do *service*. There is a lot of *service* to be done. You have to change this *jungle* into a temple. Whether you have eaten a piece of bread or not, just run and do *service*. This is what businessmen do. When a good customer comes, they run, whether they have finished eating or not. They have an interest in earning money. Here, you receive limitless wealth from the unlimited Father. Even though there is still a little time, there is no guarantee about anything because you might leave your body tomorrow. Destruction has to take place. It is for you that it is said: Death to the prey and happiness for the hunter. There is no limit to your happiness. You should have limitless happiness. You have to benefit many others. At the end, you will reach your karmateet stage. Through having remembrance, when you become bodiless, you will suddenly fly. This requires a lot of effort. Some do a lot of service. They stand at the *museum* explaining all day long. They remain engaged in service day and night. Hundreds of *museums* will open. Hundreds of thousands of people will come and you won't even have time. You will have the maximum number of shops of these imperishable jewels of knowledge. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and good morning from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### Essence for dharna:

1. In order to imbibe knowledge, first of all, make your intellect *golden-aged*. Do not have any attachment to anything except remembrance of the Father.
2. In order to attain the karmateet stage and return home, practise being bodiless. Examine your behaviour to see that you are not causing sorrow for anyone. Have I become as sweet as the Father?

**Blessing:** May you be full of success by transforming souls with the co-operation of good wishes and pure feelings.

When all Brahmin children collectively give their co-operation of good wishes and pure feelings in their mind for any task, then through this co-operation the atmosphere becomes a fortress and transforms souls. Just as a big task becomes easy with the co-operation of the five fingers, in the same way, the co-operation of each and every Brahmin child makes service successful. The *result* of co-operation is success.

**Slogan:** Only those who accumulate an income of multimillions at every step are the wealthiest of all.
